Principal's Pad –

Next week is our Rachel's Challenge assembly on Tuesday at 11:30 AM. All of our parents are invited to attend and all of our 6th and 7th graders will be attending as well. Every school in America has some sort of bullying that happens and we want to do the best we can to eliminate bullying and teach our students to be kind and considerate to others. While I talk regularly about our expectations for our students, there are still situations every week that I try and help with where students have been mean or disrespectful to other students. While all of our staff members are actively involved to help resolve issues, the more we can empower our students to take a stand against bullying, the better our school will be for everyone. If you can attend our assembly next week, we'd love to have you. Thanks for all the support and have a great weekend.

Coos Bay Library-Comedy, Magic and Balloon Sculpting

Coos Bay Public Library will host two Halloween shows of Jay Frasier's *The Magic of Reading* in the Myrtlewood Rm. at the library on Saturday, October 27 at 11am & 1pm.

The Magic of Reading show combines magic, comedy and puppetry to explore the world of reading, the library and the magic found in books. In this show, magic routines are presented that emphasize three main points: Reading is great fun; You can learn to do almost anything through reading; It is very important to take care of library books. Books from the library are used in most routines. An accomplished magician, balloon sculptor and educator, Frasier has performed at the Coos Bay Library several times in the past, where he has proved to be a big hit with parents and kids alike.

Jay combines sleight-of-hand, physical comedy and lots of audience participation to create uniquely magical and entertaining performances. Adults & children alike will experience the impossible made possible, reinforcing their sense of wonder and engaging their imaginations. As a Dom Deluise Comedy Magic Scholarship recipient, he was included in a collection of the country's top children's performers in *Genii* magazine. He is a full-time instructor of speech communication at Lane Community College and has begun studying ventriloquism.

The 45-minute program is free and all ages are welcome to attend these fun, family-oriented performances. For more information please visit the library at 525, Anderson Avenue Coos Bay, or call 269-1101. The Friends of the Coos Bay Library sponsor all programs.
