## Principal's Pad –

Sometimes it's easiest to take out our frustrations on the people who are the closest to us such as family, friends, neighbors, etc. I've talked and will continue to talk about how we want our kids, families, parents, and neighbors to all help take care of one another. This last Monday, there were several issues that came to school with our students that started from things that happened over the weekend in our community or neighborhoods. While we will always do our best to make sure that our kids are safe and ready to learn, we want to have our primary focus of our school being the instruction and learning for our students. The more our kids learn, both academically and socially, the more doors will open for them and their future. One of the great things about being in our school district for over twenty years is getting to hear the success stories of students who have returned to give me an update on their life and a, "Thanks, Mr. Inskeep!" Remember, it takes a village to raise a child!

We are still working out some bugs with our new technology system so we will send our newsletters home until we are able to email them to you all. Also remember that you can check our website and we have our newsletter posted on there before the end of the day it is sent home.

Next Monday at 3:30 we will have our first Site Council/Title One meeting of our school year. It would be really nice if we could add more parents to our team. If you are interested in being a part of our team, please come on down on Monday to our library at 3:30 and join us.

Have a great weekend,

Dale Inskeep
