Principal's Pad – This has been a great week with our weather, our kids' behavior, and a lot of good stuff happening. Our PTSA met last Friday and I feel so fortunate that we have such energetic folks. Please keep your ears open for our annual fundraiser that will begin toward the end of this month. Thank you again to all of you who make our PTSA so great!

Mrs. Cyris, our counselor who is here while Ms. Schreiber is gone on leave, has begun working with interested 7th graders twice a week during lunch. They are training to assist other students with solving conflicts positively and learning about and practicing the necessary skills. These students will be great resources for other students and will have experiences that will help them the rest of their lives.

As we wind down this first semester and prepare to begin our second semester on the 27th, I wanted to remind you all that we have our **ParentVUE** program. By using that your login and password online, you are able to access a lot of information about your child's school performance. Accessing this information creates a good catalyst for regular conversations about your child's school work, organization, attendance, and follow through. I know this program is used the most at Marshfield, but I encourage you all to give it a try and see what you think. If you don't still have your login information we sent to you at the beginning of the year, would like a bit of training, or need to access a computer online, please give us a call or stop by and we will do our best to help you understand and access this program!

Enjoy the great weather and have a fantastic weekend!

Your Support Helps Coos Bay Students Succeed

You are invited to join the Coos Bay Facilities Outreach Committee as we seek community input in developing plans for the future of Coos Bay Schools.

We will be holding a workshop on January 25th from 9:00 AM– 3:00 PM in the Library at Marshfield High School with a complimentary lunch provided at 12:00.

The committee is looking for community input on facilities and grade configurations that support student achievement. Our goal for the day is to develop tangible solutions the District can further explore and then apply to our school buildings. It's important to include everyone in this discussion about the future of our children and community. Your involvement and support will make all the difference.

Please RSVP to Peggy Ahlgrim at 541 267-131— or peggya@coos-bay.k12.or.us
