Principal's Pad –

On Monday, our site council unanimously voted to approve our budget proposal for next year to our district and budget committee. Each school is going through the same process as I've been sharing in our bulletin. Our recommendations will be reviewed at the district level and our budget committee will also review them before a final budget is approved. We'd like to increase our counselor at Sunset School to full time. We want our students ready to learn and if we had a full time counselor, we could provide more support for our students and continue to improve the culture of our school so that our students treat each other in caring and kind ways all the time and we continue to help our students become more skilled in their social skills. We would also like to increase our music teacher to full time. I am personally a strong supporter of the arts and a fine and performing arts committee has started to meet to complete a vision and the expansion of opportunities for our students in our school district. I'll continue to share the progress as I know more. Thanks for all you do!

Have a great weekend,

Dale Inskip , Principal
